# **EXECUTIVE ORDER 9413**

ESTABLISHING A SPECIAL EMERGENCY BOARD TO REPORT ON THE CLAIMS FOR WAGE ADJUSTMENTS OF NON-OPERATING RAIL-WAY EMPLOYEES

WHEREAS a Special Emergency Board was appointed by me on October 16, 1943, to consider claims for wage adjustments of non-operating railway employees, and

WHEREAS the Economic Stabilization Director on November 4, 1943, entered an order authorizing the wage adjustments recommended by said Special Emergency Board to become effective on November 19, 1943, and

WHEREAS the non-operating railway employees' organizations in the first instance refused to accept the recommendations of said Special Emergency Board and invoked the services of the National Mediation Board to enjoin the carriers from putting the recommendations into effect, and

WHEREAS the non-operating railway employees' organizations on December 27, 1943, announced that they had abandoned their objections to the recommendations of said Special Emergency Board, but asserted additional claims with respect to payments for or in lieu of overtime after forty hours per week, particularly in view of the wage adjustments recently granted to railway operating employees on account of similar and other claims; and

WHEREAS the carriers and the nonoperating railway employees have not been able to reach an agreement with respect to such additional claims of the non-operating railway employees;

NOW THEREFORE, by virtue of the authority vested in me by the Constitution and Statutes, and particularly by the First War Powers Act, 1941, the Railway Labor Act and the Stabilization Act of October 2, 1942, as President of the United States and Commander-in-Chief of the Army and Navy, it is hereby ordered as follows:

1. There is hereby established a Special Emergency Board of three members to be selected by me from the National Railway Labor Panel to consider the unsettled claims for wage adjustments of the non-operating railway employees, and to recommend to me such wage-adjustments, if any, as should be made within the limitations of the Act of October 2, 1942, and the Executive Orders thereunder.

2. The parties before the Special Emergency Board shall be the same as those included within the recommendations of the Emergency Board appointed by me on October 16, 1943.

Chapter III-Claims and Accounts

PART 30—SERVICEMEN'S DEPENDENTS
ALLOWANCE

JOINT REGULATIONS UNDER SERVICEMEN'S DEPENDENTS ALLOWANCE ACT, AS AMENDED

Section 30.1 as published in the Federal Register, 3 August 1943 (8 F.R. 10706) is rescinded and the following new § 30.1 is substituted therefor:

§ 30.1 Period of entitlement and payment of family allowances. Under provisions of the Servicemen's Dependents Allowance Act of 1942, as amended, the Secretary of War and the Secretary of the Navy prescribe jointly the following regulations pertaining to family allowances:

(a) Payments of all family allowances shall be for periods of full calendar months.

(b) To insure expeditious payment of the initial family allowance:

(1) Payment shall be made on the basis of the statements of the enlisted man in the application, filed within the prescribed period, and to or on behalf of eligible dependents designated therein; and

(2) Eligibility for initial family allowance will be deemed to have existed on and from the date of entry into active service if the application indicates eligibility on the date of application.

(c) Erroneous statements or misrepresentations in applications for initial family allowances may, as determined by the Secretary of the department concerned, be the basis for recovery by charge against the pay of the applicant, or otherwise, and for disciplinary action.

(d) When an initial family allowance is paid to any dependent for the month of an enlisted man's entry into active service in a pay status, no regular

monthly family allowance shall be paid to any dependent of such enlisted man for that month. When no initial family allowance is paid, the period of entitlement and payment of the regular monthly family allowance shall begin as

heremafter prescribed.

(e) Except as otherwise provided, the period of entitlement to and payment of regular monthly family allowances, including any increases therein, shall begin as of the first day of the calendar month in which a required written application (or a notice of change in a case of increase) is filed, or the first day of the calendar month in which a dependent is acquired, whichever is later, but in no case earlier than the month of entry of the enlisted man into active service in a pay status. In case of Class B or Class B-1 dependents the period of entitlement and payment may begin as of the first day of any subsequent calendar month that the enlisted man requests.

- (f) Any increase in a regular monthly family allowance in effect to a wife; or wife and children, incident to the birth of a child or additional child, shall be effective as of the first day of the calendar month during which the birth occurs notwithstanding that notice or evidence thereof is received in a subsequent month.
- (g) Except as otherwise provided, the period of payment of monthly family allowance shall terminate, or payment shall be decreased, as of the end of the calendar month during which any notice is received by the disbursing officer paying the allowance of a change which terminates or limits the entitlement of the dependent or dependents to such allowance. Entitlement to family allowance shall terminate or be modified at the end of the month in which such change occurs. Checks to which there is no entitlement may be permanently withheld.
- (h) Insofar as practicable the period of entitlement and payment of any Class B or Class B-1 regular monthly family allowance requested in writing by the enlisted man to be discontinued, other than by reason of change in status of dependents, shall terminate as of the end of the calendar month requested by the enlisted man or the end of the calendar month during which such request is received by the disbursing officer paying the allowance, and in no case later than the end of the next succeeding calendar month.
- (i) For the purpose of determining amounts of family allowance to be paid:
- (1) In cases in which no family allowance has been granted to a wife or divorced wife, the amount of family allowance payable to children shall be the amount specified in the statute where there is no wife or divorced wife:
- (2) In cases in which no family allowance has been granted to a parent, the amount of family allowance payable to brothers and sisters shall be the amount specified in the statute where there is no parent;
- (3) All children of an enlisted man shall be considered one family entity irrespective of differences in their custody, residence, or parentage;
- (4) Parents of an enlisted man, and all his brothers and sisters irrespective

of differences in their custody, residence, or parentage, shall be considered one

family entity.
(5) The total amount of monthly family allowance payable to or for the benefit, respectively, of two or more children, of two parents, or of two or more brothers and sisters, shall be equally divided among the respective children, parents, or brothers and sisters or shall be otherwise apportioned and paid within the respective groups as the Secretary of the department concerned may direct.

(j) Whenever a court order or decree or written agreement of separation provides a single sum for alimony to a divorced wife or maintenance for a wife and also for the support of a child or children, the proportional share of the wife or divorced wife in such sum shall. for the purpose of carrying out the provisions of section 106 (c) of the act, be deemed to be sixty per centum thereof in the case of one child and forty per centum thereof in any case of two or more children. Regardless of any limit stated in a court order or decree or written agreement the full statutory amount of family allowance shall be payable to or on behalf of any child or children.

(k) Application of section 106 (c) (1) shall be made in those cases in which there is a lawful wife living separate and apart from the enlisted man and there is also a court order or decree or a written agreement which expressly or impliedly provides for the beginning or continuance of such living separate and apart. In construing a court order or decree or written agreement full consideration shall be given to all the facts and circumstances under which the order, decree or agreement is issued or made. A penal order for marital support or an order in a desertion case is not within this statutory limitation; in such cases the full allowance for a wife is payable.

(1) The payment of any amounts of a family allowance uncollected at the time of death of a dependent shall be made to-such payee or payees, including the enlisted man when appropriate, as the Secretary of the department concerned shall deem equitable, subject to the provisions of section 115 of the act.

(m) The Secretary of the department concerned may at any time require additional evidence in any family allowance case. Failure to furnish such evidence within a reasonable time after request or any insufficiency of evidence shall constitute good cause for the discontinuance or modification of such family allowance.

These joint regulations are effective November 1, 1943; they rescind and supersede the joint regulations approved July 19, 1943.

(56 Stat. 381, 57 Stat. 577, 37 U.S.C. Sup. 201, et seq.)

or sold to an eligible war worker: Provided, That any sale so made shall take place not later than 15 days after the Federal Housing Administration makes its final Priority Compliance Inspection Report ("Completion Report") with respect to the unit (after which time the unit if not sold shall be held for rental as indicated in (i)) And provided, further That no owner shall sell more than one-third of the units in all projects (begun on or after February 10, 1943) which he has placed under actual construction in any war housing area except such sales as are made in conformity with the requirement of holding for rental as indicated in (i) And provided. further That any sale made pursuant to (ii) shall be within a price range for the general types of units intended to be sold which is acceptable to the National Housing Agency. The proposed price range shall be submitted to the Federal Housing Administration in advance of any sale by letter or other appropriate method, and in the case of all PD-105 applications filed on or after August 1. 1943 shall be submitted with the application. Any sale, either with or without prior rental occupancy, is subject to the conditions that:

(a) The sale price (except as provided in § 702.12 hereof) is not in excess of the fair market price thereof, or \$6000, whichever is lower,

(b) The purchaser is an eligible war worker under the provisions of NHA General Order No. 60-1B, and

(c) The owner submits to the National Housing Agency regional representative, through the local office of the Federal Housing Administration, an agreement in the prescribed form (Form NHA 60-1), properly executed by the purchaser, stating that such purchaser will continue to occupy the dwelling unit or will hold the dwelling unit subject to all occupancy and disposition provisions set forth in NHA General Order No. 60-2B.

A sale may be made under this paragraph (a) (1) without obtaining further approval from the National Housing Agency, provided the above-mentioned Form NHA 60-1 is submitted to the National Housing Agency regional representative, through the local office of the Federal Housing Administration, immediately following such sale.

(2) Any such housing may be transferred to a person who will not occupy any part of such housing as his (or her) own dwelling, if

(3) An eligible war worker under NHA General Order No. 60–1B may file an application for priority assistance for a private war housing unit suitable to his needs, and upon approval of such application may build, own and occupy such unit without conformity to rental requirements: Provided, That such war worker submits satisfactory evidence to the Federal Housing Administration that he has the bona fide intention and capacity to build for himself and is not being utilized to circumvent the rental requirements which exist for his protection. Any disposition of such unit by such war worker shall be subject to the rules of disposition set forth in paragraph (a)

(b) All private war housing begun prior to February 10, 1943, the owner ship of which has been transferred since such housing was begun, may be rented, sold, or otherwise disposed of at the option of the owner without exception.

(c) All private war housing begun prior to February 10, 1943, which has not been transferred since such housing was begun, may be rented, sold, or otherwise disposed of at the option of the owner except that for the duration of the national emergency declared by the President on September 8, 1939:

(1) Rentals or sales prices (except for involuntary transfer and except to the extent approved prior to February 10, 1943 by the War Production Board, or subsequent to February 10, 1943 by the National Housing Agency) shall not exceed the respective maximum amounts permitted by the conditions of the application (or other instruments relatedthereto) for priority assistance, author ity to begin construction, or exemption from Federal Reserve Board Regulation W (7 F.R. 3351) submitted in connection with such housing; and the requirements of such application (or other instruments related thereto) with respect to occupancy preference to war workers shall be complied with; or

(2) All such housing constructed with priority assistance, or with authority to begin construction, obtained from the War Production Board by filing an application for such assistance or author ity on Form PD-105 (Revised 4-23-42) or Form PD-200 accompanied by a form Applicants' Supplemental Certification if such application was for authority to begin construction of housing not to be occupied by the owner, may be disposed of, except for involuntary transfers, only as provided in such application or as fol-

lows

(i) If such application did not provide for sale, such housing may be sold subject to the provisions set forth in paragraph (a) (1) (i) above: (Provided, That the purchaser may be a person who has occupied the housing continuously for two months and who is an eligible war worker either under the provisions of NHA General Order No. 60-1B or the provisions of the application for priority

assistance or authority to begin construction submitted in connection with such

housing) or

(ii) If such application did not provide for rent' or lease-option, such housing may be rented, with or without an option to purchase, after the National Housing Agency regional representative for the area in which such housing is located has approved the initial rent or the lease-option payments for such housing. Any petition requesting such an approval of the initial rent or the lease-option payments for such housing shall be submitted to a National Housing Agency regional representative, through the local office of the Federal Housing Administration, on a properly executed Form NHA 60-3. Each National Housing Agency regional representative is hereby authorized to approve in the particular case the amount of such initial rent or lease-option payments.

§ 702.12 Adjustment of rent or sale price. (a) The initial rent charge prior to any occupancy or the sale price for any housing accommodations in a private war housing project may be increased over the amount provided therefor in § 702.11 of this general order only when approved by the National Housing Agency. The owner of any such housing may petition the National Housing Agency to permit an increase in rent charge or sale price at any time. Any such petition shall be submitted to the National Housing Agency regional representative, through the local office of the Federal Housing Administration, on a properly executed form NHA 60-4. Each National Housing Agency regional representative is hereby authorized to grant such relief as he deems appropriate in the particular case, provided the petition for relief shows clearly that the owner has incurred, or will incur, costs in the construction or operation of such housing, over which the owner had or has no control, in excess of the costs estimated originally in connection with such hous-

(b) Any request for permission to increase the rent charge for any private war housing after such housing has been occupied initially must be submitted to the local office of the Office of Price Administration.

§ 702.13 Modification of occupancy and disposition provisions by regional representatives. (a) At any time subsequent to 60 days after completion of any private war housing, the original owner, or any subsequent owner, of such housing may petition the National Housing Agency to permit such housing to be disposed of otherwise than as provided above in § 702.11 (a) Any such petition shall be submitted to a National Housing Agency regional representative, through the local office of the Federal Housing Administration with the recommendation thereof, on a properly executed Form NHA 60-2. Each National Housing Agency regional representative is hereby authorized to grant such relief to persons who so petition as the National Housing Agency Regional Representative deems appropriate, in the particular case,

by relaxing the occupancy and disposition provisions applicable to such housing.

(b) Each National Housing Agency regional representative is hereby authorized on his own initiative (or on the basis of recommendations which the local office of the Federal Housing Administration may initiate) to relax the occupancy and disposition provisions applicable to any private war housing, where such action is deemed appropriate in the interests of the war housing program. When so acting, the regional representative may act without reference to whether the housing has been completed or whether it has been occupied for 60

days after completion.

(c) Any relaxation of occupancy and disposition provisions may permit a shortening of any holding period applicable to the housing involved or a liberalization of the definition of eligible war worker applicable to such housing or both; may permit a change in rent level or sale price in accordance with § 702.12 of this general order; and, in exceptional cases, where the NHA regional representative determines that there is no further need for reserving such housing for ellgible war workers, the occupancy and disposition provisions may be removed

entirely from such housing.

(d) Relaxation of occupancy and disposition provisions shall rest primarily upon the need to make prompt and effective use of private war housing units not needed by in-migrant war workers because of inexact forecasting in earlier programming or because of changes in contract and employment schedules after the programs were written. Relaxation in response to petitions of individual builders may be made to avoid undue hardship to the builders caused unusual circumstances: Provided, That the hardship goes beyond the common hardships which result from the war and from war housing regulations: And provided. That on an equitable balance of all the factors the relief to the builder in the particular case would not unduly affect the war housing program in the locality.

(e) When relaxation of occupancy and disposition provisions relates to an entire locality or to a very substantial volume of private war housing, as distinguished from individual cases or relatively small volumes of housing, the regional representative shall feel free if he deems it necessary to consult with the Office of the Administrator prior to taking action. What constitutes a "very substantial volume" of private war housing varies with local conditions, but a volume amounting to more than 25 percent of the total number of private war housing units in the locality would certainly be so considered. Whether a relaxation is individual, small or substantial, the regional representative shall notify the Office of the Administrator of action taken as promptly as feasible, in order that such Office may keep abreast of current developments.

(f) When the National Housing Agency regional representative authorizes a relaxation applicable to a number of builders in the locality, the local office of the Federal Housing Administration shall be promptly notified and requested to extend prompt notification to the builders affected. The regional representative shall also send prompt notification of all relaxations to the War Housing Center in the locality.

This order shall become effective November 12, 1943.

John B. Blandford, Jr., Administrator.

(b) On or after February 10, 1943, initial occupancy or re-occupancy of every dwelling accommodation in all FPHA-aided public war projects for which applications for priority assistance are submitted to WPB after February 10, 1943 shall be reserved exclusively for such eligible war workers, as defined in NHA General Order No. 60-1B, as are eligible for occupancy thereof under applicable state or Federal laws.

(c) On or after February 10, 1943, reoccupancy of every dwelling accommodation in such Federally-owned public nonwar housing projects bunder the jurisdiction of FPHA, as the National Housing Administrator determines are suitable to provide war housing, shall be reserved exclusively for eligible war workers as defined in NHA General Order No. 60-18.

§ 703.3 Limited rescriation. (a) Reasonable preference for occupancy by war workers (as required by the conditions under which priority assistance was granted') shall be observed with respect to all FPHA-aided public war housing projects for which applications for priority assistance were submitted to WPB prior to February 10, 1943. The local housing authorities that own and manage these projects shall be requested to conform, to the extent practicable, their management programs by reserving initial occupancy or re-occupancy in

<sup>3</sup>Federally-aided local authority-owned Public Act No. 671 projects and priority assisted Public Act No. 412 projects.

\*Tenant selection, in projects included in this paragraph (b) which are located in States that have not enceted appropriate defense or war housing legislation, is subject to low income limitations of applicable state housing legislation; and with respect to those projects which are not converted to Public Act No. 671, tenant relection is subject also to the low income limitations of the United States Housing Act and of applicable state housing legislation.

\*FFPHA-operated PWA Housing Division

FPHA-operated PWA Housing Division projects, local authority-leased PWA Housing Division projects, and non-farm housing projects transferred to FPHA from FSA pursuant to the provisions of paragraph 1 (g) of Executive Order 9070 (7 F.R. 1523).

°On all projects described in this paragraph (c) where there are outstanding lease or sale agreements, compliance with the provisions of this order is subject to appropriate medication of such outstanding lease or cale agreements to conform them to the provisions of this order. On all PWA Housing Division projects, compliance with the provisions of this order is subject to the obtaining of appropriate Presidential findings and conversion to Public Act No. 671.

The conditions under which priority assistance for these projects were granted defined reasonable preference as meaning that each dwelling unit shall be received for occupancy by in-migrant or resident war workers for 30 days after the entire project is available for occupancy or 80 days from starting to take tenant applications, whichever period is longer.

\*Includes Federally-aided local authorityowned Public Act No. 671 projects and priority assisted Public Act No. 412 projects, but excludes normal low rent housing projects under Public Act No. 412 which merely obtained civilian priority assistance without a requirement of reasonable preference for war workers. these projects to such eligible war workers (as defined in NHA General Order No. 60-1B) as are eligible under applicable state or Federal laws in the same manner as is required with respect to the projects described in § 703.2 (b) above.

§ 703.4 Modification of occupancy provisions. (a) Each National Housing Agency regional representative is hereby authorized on his own initiative (or on the basis of recommendations which the NHA constituent unit having control of the public war housing involved may initiate) to relax the exclusive reservation requirements for any public war housing, where such action is deemed appropriate in the interests of the war housing program. When so acting, the regional representative may act without reference to whether the housing has been completed or to how long it has been held available after completion. The regional representative shall give prompt notification of any such relaxation to the NHA constituent unit having control of the public war housing involved, in order that such unit may put the proposed relaxation into effect or discuss it further with the regional representative.

(b) The NHA constituent unit having control of any public war housing may relax the exclusive reservation requirement applicable to such housing, where such action is deemed appropriate in the interests of the war housing program: Provided, That the NHA constituent unit shall advise the National Housing Agency regional representative not less than 10 days prior to taking such action in order that the regional representative may have adequate opportunity if he so desires to require a further holding period for the housing involved. Such relaxations may be made without reference to whether the housing has been completed or to how long it has been held available after completion.

(c) Relaxation of the exclusive reservation requirements applicable to public war housing shall rest primarily upon the need to make prompt and effective use of public war housing units even when not needed for the precise types of war workers eligible under existing occupancy rules, because of inexact forecasting in earlier programming or because of changes in contract and employment schedules after the programs were written. After the exclusive reservation requirements have been relaxed, the NHA constituent unit having control of the public war housing involved shall permit such housing to be occupied in the following order of preference: (1) Eligible war workers under the existing rules; (2) eligible in-migrant military personnel, viz, enlisted men in the naval or military services of the United States or officers of the Army or Marine Coros not above the rank of Captain, and officers of the Navy and Coast Guard not above the grade of Lieutenant, Senior Grade, assigned to duty at military or naval reservations, posts or bases, or to duty at defense industries; (3) other civilian war workers (as defined in NHA General Order No. 60-1B) or eligible mil-

(d) When relaxation of exclusive reservation requirements is contemplated for an entire locality or for a very substantial volume of public war housing, as distinguished from individual cases or relatively small volumes of housing, the regional representative shall feel free if he deems it necessary to consult with the Office of the Administrator prior to taking action. What constitutes a "very substantial volume" of public war housing varies with local conditions, but a volume amounting to more than 25 percent of the total number of public war housing units in the locality would certainly be so considered. Whether the relaxation be individual, small or substantial, the regional representative shall notify the Office of the Administrator of action taken as promptly as feasible, in order that such Office may keep abreast of current developments.

# TITLE 32—NATIONAL DEFENSE Chapter IX—War Production Board

Subchapter B-Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

# PART 1010—SUSPENSION ORDERS [Suspension Order S-480]

LYNN DYEING & FINISHING CO., INC.

Lynn Dyeing and Finishing Company, Inc., of 51–61 Keen Street, Paterson, New Jersey, is engaged in the business of dyeing textiles, in which it uses dyes with anthraquinone derivatives which are controlled by Conservation Order M-103.

During the third and fourth quarters of 1942 and the first quarter of 1943 it used six hundred pounds of such dyes in excess of the amount allocated to it by the War Production Board. Such excessive use was the result of gross negligence in failing to comply with the conditions of the allocation made to the company on October 31, 1942, together with its purchase of such dyes in the first quarter of 1943 although no quota had been assigned

to it for that period. Its conduct must be deemed wilful.

The present quota for anthraquinone Class C-dyestuffs contained in Conservation Order M-103 is expressed in dollars, rather than pounds, and the formula is, in substance, \$1.50 to the pound.

These violations of Conservation Order

These violations of Conservation Order M-103 have hampered and impeded the war effort of the United States by diverting scarce materials to uses unauthorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.480 Suspension Order No. S-480 (a) During each of the first three calendar quarters of 1944, Lynn Dyeing and Finishing Company, Inc., its successors or assigns, shall abstain from receiving in any quarter, and no person shall sell or deliver to Lynn Dyeing and Finishing Company, Inc., its successors or assigns, anthraquinone Class C dyestiffs of a value in excess of the difference between its duly allotted quota for such period, calculated in dollars, and the sum of three hundred (\$300) dollars, unless otherwise authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Lynn Dyeing and Finishing Company, Inc., its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on issuance and shall expire on September 30, 1944.

Issued this 5th day of January 1944.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 3, Int. 8]

ELECTRONIC INTERCOMMUNICATING SYSTEMS
AND WIRE INTERCOMMUNICATING SYSTEMS

The following interpretation is issued with respect to Priorities Reg. 3:

List B of Priorities Regulation 3 (§ 944.23) forbids the use of blanket MRO ratings to obtain electronic intercommunicating systems or wire intercommunicating systems. This restriction applies only to getting systems not yet installed. Therefore, blanket MRO ratings may be used to obtain repair parts and materials for existing intercommunicating systems. Also, those blanket MRO ratings which may be used for minor capital additions, may within prescribed dollar limits be used to add stations to an existing intercommunicating system to bring it to its designed capacity. Thus, if an intercommunicating system is designed for 16 stations, with only 12 stations originally installed, four stations may be added by the use of blanket MRO ratings. However, an expansion beyond the 16 stations, or any enlargement of or an extension beyond the

designed capacity, may not be obtained by use of blanket MRO ratings.

In conjunction with the above interpretation, it should be pointed out that a related item, signal and alarm equipment, also appears on List B of Priorities Regulation 3. With respect to signal and alarm equipment, blanket MRO ratings may be used to get parts and materials for repair and maintenance of existing equipment. However, since signal and alarm equipment is generally installed without a specific margin of unused designed capacity, no additions or extensions by the use of blanket MRO ratings are permitted.

PART 3176—SHIPEUILDING

[Limitation Order L-252, as Amended Jan. 6, 1944]

VALVES AND VALVE PARTS

The fulfillment of requirements for the defense of the United States has created a shortage of steel, copper, and other critical materials used in the manufacture of valves and valve parts, for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3176.1 Limitation Order L-252—(a) Definitions. Wherever used in this order:

(1) "Producer" means any person who manufactures valves and valve parts.

(2) "Valves" means gate, globe, angle, cross, lift check, angle check, or swing check valves (including variations of those types, such as the valves generally referred to as quick opening, blow off, hose end, Y-type and hydraulic) except drilling through and flow line valves for oll production service. This definition does not include valves of the types generally referred to as "specialties"

(3) "Valve parts" means parts for valves as defined above.

#### APPENDIX

Specifications for Valves and Valve Parts

The following specifications govern the manufacture of valves and valve parts. These

specifications do not purport to contain any recommendations regarding the most efficient or safe use of any valve or valve parts covered herein.

Certain of the terms used in this appendix (including the terms valves and valve parts) are defined in the body of this order, L-252. In addition, certain exceptions are made, and certain obligations imposed upon producers and others. You should, therefore, be thoroughly familiar with the body of the order before reading this appendix.

### PART 1

Iron Gate, Globe, Angle, Cross, and Ohcok Valves and Valve Parts

1. Standard size schedule: Iron valves. Valves shall be manufactured only in the pressure classes listed in Table 1 and in the particular sizes, specified in Table 2, which are comprehended within the size range specified in Table 1 for the particular pressure class;

TABLE 1 [All size ranges are inclusive]

The primary pressure classification designates a class of valves and does not necessarily mean that all sizes in a given class carry the primary pressure classification. American Standards Association standards and manufacturers practice frequently reduce the pressure ratings as size increases and may not always rate valves for both steam and water.

In sizes 3" and smaller the 150# and 300# primary pressure classification valves are included as substitutes for brass valves. Flanged valves may be rated in accordance with the American Flange Standard used.

Note: Other valve end connections in common use on the date of issuance of this order, including among others, the types known as Victaulic, Dresser and Universal, may be manufactured, but only in accordance with the specifications listed in Table 1. For the purposes of this order, "common use" means use by at least ten companies.

### PART 3270—CONTAINERS

[Supplementary Order L-103-b as Amended Jan. 4, 1944]

GLASS CONTAINER AND CLOSURE QUOTAS

Section 3270.36 Supplementary Order L-103-b is amended to read as follows:

§ 3270.36 Supplementary Order L-103-ъ.

# What This Order Does

This order lists the only products which may be commercially packed in new machine-made, glass containers or with new metal closures. It specifies closure materials and sets forth the number of glass packages and metal closures which may be used for each listed product. In

addition, some restrictions are placed upon the manufacture of closures.

The order limits "commercial packs" only. Although there are certain manufacturing restrictions, the use of glass containers or metal closures for home canning purposes is not affected.

Likewise, the provisions of this order -cover only new glass containers and clo-Used containers, or closures sures. are not limited. However, closures which are fabricated from used closures—that is, where the used closures are a production material—are regarded as new closures made of "waste" and are governed by the pertinent provisions of this order.

Definitions of the various terms used in this order appear in paragraph (x) hereof.

Restrictions On Use of Glass Containers and Clositres

(Note exceptions from these restrictions in paragraphs (p) through (v))

(a) Prohibited acceptances and uses of glass containers and closures. No packer shall accept delivery of or use any new glass container, or any new metal closure for packing any product not listed in a schedule of this order.

(b) Limitations on acceptance and use of glass containers and closures. Likewise, during any calendar year beginning with 1944, no packer shall accept delivery of or use, for packing any product which is listed in a schedule of this order, more new glass containers or more new metal closures (other than closures made from waste) than his quota for that product. However, jobbers or retailers may obtain closures and glass containers and resell them in conformity with the provisions of this order.

(c) Closure materials. No packer shall accept delivery of or use, for packing any product, new metal closures made of any material except those permitted for that product in the schedules of this order. However, blackplate closures (including rejects) may be used wherever tinplate or terneplate is specified, and frozen plate may be used wher ever tinplate, terneplate or blackplate is specified. Likewise, closures made of waste may be used in accordance with the following paragraph:

(d) Closures made of waste. Closures made of waste shall not be used for packing any product not listed in the schedules attached to this order. Closures made of waste may be used in addition to specified quotas for listed products.

(e) Home canning jars. No packer shall pack any commodity in a home canning jar. (Note that the use of these jars for home canning is not restricted)

# Quotas

(f) General. Closure and glass quotas are stated separately in the attached schedules, and are not necessarily tho same for any given product.

Quotas are not interchangeable as between listed products. That is, a packer who packs two products, product A and product B, must compute his quota (in the manner described in the following paragraph (g)) for each product separately. He cannot allot any portion of his quota for product A to product B. even if he does not pack his full quota of product A.

Furthermore, quotas may not be transferred from one packer to another except as provided in Priorities Regulation 7A.

(g) Computation of quotas. In most cases where this order provides a quota for the packing of any product, it does so, in the attached schedules, by stating a percentage figure followed by a calendar year—for instance, 100% 1943. Where this appears in the "glass quota" column opposite a product, it means, unless otherwise specified, that a packer's glass container quota for that product during 1944 and subsequent calendar years is computed as follows:

(1) He takes the number of new glass containers which he used for packing that product during the named base year.

(2) He subtracts the number of new glass containers which he used for packing that product during the named base year and which were quota exempt under the provisions of any prior order of the War Production Board or under any previous amendment of this order.

(3) He multiplies the resulting figure

by the applicable percentage.

Identical rules apply to the computation of closure quotas, except that unless otherwise specified they are based on the number of new metal closures used dur-

ing the specified base period.

The schedules of this order provide that the quotas for some products are based on the number of new metal closures or new glass containers accepted rather than those used during the specified base period. Here again, the method of computation, described in this paragraph, applies, except that the word "accepted" should be substituted for the word "used" in steps 1 and 2 above. Only the new metal closures or the new glass containers which a packer actually accepted delivery of and those which were invoiced to him during the applicable base period may be included in his quota base in such cases. But, for the purpose of making charges against quota, a packer must include the new metal closures and the new glass containers which he actually accepts delivery of, and those which are set aside for him or held by another party for his account-whether or not they are actually invoiced to him.

In a few cases, the schedules of this order set forth special rules, not covered by the above, for the computation of quotas for particular products. Such rules must be followed, and supersede the general statements contained in this par agraph (g) to the extent that they conflict with them.

(h) Use of quotas. As indicated above, most quotas are based on past use. The word "use" refers only to the actual filling operation in the case of glass and the actual capping operation in the case of closures. Therefore, to the extent that a person did not do this directly during the base period, he has no quota, despite the fact that he may have supplied the actual packer with the product, closures, containers, etc. After December 31, 1943, any packing done for him must be within the quota of the person performing the actual filling and capping operation.

In the case of products whose ouotas are based upon acceptances, a person is deemed to have "accepted" glass con-

tamers or closures (for the purpose of computing quotas) only to the extent that he himself actually took possession of them or had them invoiced to him. If he did not do this during the base period, he has no quota, and the rules stated in the preceding paragraph of this paragraph (h) apply.

Packers who use or accept new glass containers or metal closures for packing products for the account of others, as well as for their own account, must conduct both operations within their own quotas. Without a special appeals grant under this order, they cannot regard their use or acceptances of glass containers and metal closures for the account of others as an addition to their quotas. This is true even where the other person may represent to the packer that he has a quota which he is not using himself.

On the other hand, packers are entitled to include, in their own quota bases, their use or acceptances of new glass containers or new metal closures, for the account of others during the specified base periods.

#### Restrictions on Sale and Delivery of Class Containers and Closures

- (i) General restrictions. No person shall sell or deliver any glass containers or closures which he knows, or has reason to believe, will be accepted or used in violation of any provision of this order.
- (j) Export deliveries. During any calendar year, no person shall sell or deliver more empty new glass containers or more new metal closures to persons outside of the 48 States of the United States and the District of Columbia than he sold or delivered to such persons during 1943.
- (k) Certificates. No person shall sell or deliver any new glass containers or new metal closures except under a purchase order or contract validated by the delivery to such person of a purchaser's certificate, signed manually, or as provided in Priorities Regulation 7.

This certificate shall be in substantially the form attached hereto as Exhibit A in the case of sales or deliveries of all glass containers, and of all metal closures except malt and non-alcoholic beverage closures. Attention is called to the fact that this certificate, once filed by a purchaser with a supplier, covers all future deliveries from that supplier to that purchaser.

The certificate should be in substantially the form attached hereto as Exhibit B, where sales or deliveries of malt or non-alcoholic beverage closures are concerned. This certificate differs from Exhibit A in that it must be filed with each purchase order for beverage closures in order to validate the order.

(1) Outstanding certificates. Certificates previously filed with a supplier under any previous amendment of this order, shall remain valid insofar as sales or deliveries of glass containers are concerned. Exhibit A certificates previously filed under order M-104, shall remain valid insofar as closure (other than malt or non-alcoholic beverage) deliveries are concerned. In either of the above cases, no new certificate need be filed by any purchaser to validate his

orders placed with the supplier to whom the previous certification was made.

(m) Cases where certificates need not be filed. No certificates shall be required for the sale or delivery of home canning ars or home canning closures, nor shall any certificates be required for the sale or delivery of any kind of glass containers or closures to: (1) Retailers, for resale empty or unused; or (2) persons purchasing closures or glass containers from retailers.

(n) Standard certifications. The standard certification provided for in paragraph (d) of Priorities Regulation 7, cannot be used in place of the certifications provided by this order; nor may the certifications provided by this order be waived in accordance with paragraph (f) of Priorities Regulation 7.

Restrictions Relating Solely to Manufacture of Closures

(o) Closure material (1) No person shall use any zinc, aluminum, tinplate, terneplate, blackplate, frozen plate, waste-waste or waste for the manufacture of the following types of closures:

(1) Cover caps which serve as a protective or decorative closure in addition to any original sealing medium (other than parafiln) such as another closure.

(ii) Double shell or semi-double shell

caps.

(iii) Two-piece closures when both pieces are made of metal, except as permitted in paragraph (o) (2)
(2) No person shall use any zine,

- (2) No person shall use any zinc, aluminum, tinplate, terneplate, blackplate, or wire for the manufacture of any closure of the home canning type, except as, and to the extent permitted in Schedule VII attached to this order. No closure manufactured pursuant to Schedule VII shall knowingly be sold to, or used by, any person for packing any product for sale.
- (3) No person shall use any tinplate, terneplate or blackplate heavier than 30 pounds per base box for the manufacture of crown caps. This restriction does not apply to rejects, frozen plate or wastewaste.
- (4) No person shall use for the manufacture of closures any tinplate with a tin coating in excess of 1.25 pounds per base box; and all persons manufacturing closures shall, to the greatest extent closures of closures for the manufacture of closures for which tinplate is permitted by the provisions of this order.
- (5) No person shall use any wire for the manufacture of paperboard disc plug caps, having a diameter of two inches or less, for milk bottles.

# Exceptions Pertaining to Both Glass Containers and Closures

(p) Deliveries to certain agencies and percons. Nothing in this order shall prohibit the purchase, acceptance of delivery, or use (such use to be in addition to any quota specified in the schedules attached to this order) of glass containers or closures by any of the following persons or by any person for packing any product to be delivered to or for the account of any of the following persons:

(1) Army, Navy, Marine Corps, Maritime Commission, or War Shipping Administration of the United States (including persons operating vessels for such Administration or Commission for use thereon)

(2) Any person for packing products. for retail sale or distribution through post-exchanges, sales commissaries, officers' messes, servicemen's clubs, ship service stores, or outlets; provided same are located at Army or Navy Camps, are not operated for private profit and are established primarily for the use of Army or Navy enlisted personnel within Army or Navy establishments or

on Army or Navy vessels.
(3) American Red Cross, United Service Organizations, or such other nonprofit Defense Recreation Committees, engaged in the operation of recreation centers in the 48 States of the United States or the District of Columbia solely for military personnel, as are certified to be within the exemption provided by this paragraph (p) (3) by the Office of Defense Health and Welfare Services, OEM.

(4) Any agency of the United States purchasing for a foreign country pur suant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act)

(q) Special provisions in schedules relative to exempt deliveries to certain agencies and persons. The schedules of this order contain certain limitations on the exception provided by the preceding paragraph (p) in the case of certain products—as, for instance, ice cream mix and malt and nonalcoholic beverages. In such cases, the provisions of the schedules are controlling and supersede paragraph (p) to the extent that they conflict therewith.

#### Exceptions Relative to Glass Containers Onlu

(r) Small users. The restrictions of this order which pertain to glass containers shall not apply to any person during any calendar year in which he accepts no more than a total of five hundred (\$500.00) dollars worth (cost price to him) of empty new glass containers for all products.

(s) Large size glass containers. The restrictions of this order which pertain to glass containers shall not apply to any glass container with a capacity larger than 140 fluid ounces.

(t) Glass containers manufactured prior to the date of this order strictions of this order shall not preventany person's acceptance or use, for a product not listed in the schedules of this order, of any glass container manufactured before January 1, 1944, if the glass container in question was originally manufactured for the purpose of packing an unlisted product, or was originally manufactured for packing a listed product but has a capacity not permitted for that product in the attached schedules of this order. This paragraph does not permit the quota free use of glass containers for listed products regardless of when the containers were manufactured.

(u) Quota free use of certain glass containers in inventory of packer on or before December 31, 1943. To the extent that as of January 1, 1944, a packer had in his possession, empty glass containers which he was permitted to accept under paragraphs (b) (c) and (d)

of order L-103-b as amended November 1, 1943, (excluding containers which he was permitted to accept under paragraph (e) of that order) he may use them dur ing 1944 for packing any listed product in addition to his quota for that product. Nothing in this paragraph shall permit the quota free use of glass containers "borrowed" against anticipated 1944 usage, in accordance with paragraph (e) of this order as amended November 1, 1943.

Exceptions Pertaining to Closures Only

(v) Small users. The restrictions of this order which pertain to closures shall not apply to any person during any calendar year in which he accepts no more than five thousand new metal closures for all products.

### Prior Appeals

(w) Appeals granted prior to December 31, 1943 under Order M-104 and Order L-103-b. All appeals granted prior to December 31, 1943 under orders L-103-b and M-104 are cancelled and shall be ineffective on and after January 1, 1944. Therefore, after that date, no per son shall accept delivery of or use or shall manufacture, sell or deliver any new glass container or any new metal closure except in accordance with the provisions of this order-unless he receives a new grant on appeal after January 1, 1944.

#### SCHEDULES-GENERAL EXPLANATION

Schedules I through VI list the only products which may be packed in new glacs containers or with new metal closures. Schedulo VII relates to the manufacture of home canning closures.

The data set forth in the two "quota" columns, opposite each product, indicate the number of new glazs containers and new metal closures (determined in accordance with the general rules cet forth in paragraph (g) of Order L-103-b), which may be used for packing that product. However, any special quota provisions which these schedules make applicable to any product, are controlling to the extent that they conflict with paragraph (g).

The "X" mark which appears opposite each

The "X" mark which appears opposite each product in one of the columns headed "closure material" indicates that, except as listed hereafter, only closure made of the specified material may be used to pack that product. The general exceptions from this rule are:

(i) Closure made of blackplate (including rojecto) may be used, within quotas, wherever timulate or template is specified.

(ii) Closures made of frozenplate may be used, within quota, wherever either timplate, terneplate or blackplate is specified.

(III) Closures made of waste may be used in addition to specified quotas for list-products.

All special provisions of these schedules relating to closure materials for specific products must be followed, and control to the extent that they conflict with the above.

tent that they conflict with the above.
All size specifications for glass containers set forth in these schedules must be followed in addition to the provisions of Order I-103 and its schedules.

Attention is called to paragraphs (p) through (v) of Order L-103-b which establish limited exceptions to the provisions of this order. Here again, any special provisions which these schedules contain relative to quota exceptions—as in the case of ice cream mix and certain beverages—must be observed.

#### SCHEDULE I-FCOES

No product packed in a can shall be repacked for sale in a glass container by the same or a different person, in the same or a different form, except as follows (or as otherwise specifically permitted in this schedule).

(1) When required for the packing of other products, plineapple may be repacked from No. 10 cans. Grape juice, grape pulp, citrus peel and pulo may be repacked from reusable cans, 5-gallons or larger. Apricots and peaches, solid ple pack, may be repacked from No. 10 cans or larger. No. 10 cans cut under this provision must be properly cleaned and returned to the nearest detinning plant.

(ii) Tomato paste, tomato pulp or puree, and tomato sauce may be repacked from No. 10, or from 5-gallon or larger reusable cans when required for packing other products, or for repacking in different form (other than in the form of tomato paste or tomato pulp or puree), but none may be repacked in the same form. No. 10 cans cut under this provision must be properly cleaned and returned to the nearest detinning plant.

C., stating their inventories of Southern yellow pine for production material at the beginning of the quarter, the amount delivered to them for production material during the quarter, and the, amount used for production material during the quarter, whether obtained under this direction or in some other way. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(e) Manufacturers of farm machinery do not have to get restricted Southern yellow pine lumber under this direction unless they want to. They may get it in any other way that is allowed under M-361. For example, a small manufacturer who buys from a mill producing less than 10,000 board feet a day may prefer not to change his arrangement. Manufacturers who buy from a limited number of sources may prefer to file on WPB-2720.

(f) "Farm machinery" means farm machinery and equipment as defined in Orders L-257 and -L-257-a. "Production material" means material for the production of farm machinery.

[Conservation Order M-364, Direction 1]

DELIVERIES OF HARDWOOD LUMBER TO FARM MACHINERY MANUFACTURERS

The following direction is issued in accordance with Order M-364, paragraph (d)

- (a) This direction tells how a manufacturer of farm machinery may get the restricted hardwood lumber he needs for production material without having to file on Form WPB-2720.
- (b) A manufacturer of farm machinery must endorse the following certificate on his purchase orders:

All restricted hardwood lumber covered by this purchase order or contract is required in order to enable me to fulfill an authorized production schedule for the production of farm machinery and equipment. Delivery may be made to me under Direction 1 to order M-364, with the terms of which I am familiar.

Date -(c) Any producer may sell, ship, or deliver restricted hardwood lumber (either directly or through one or more intervening persons) to fill any order or contract bearing such a certificate, just as if the order were certified in the way prescribed by paragraphs (b) (1) or (b) (2) of Order M-364. The use of the above form of certificate by the buyer and delivery by the producer is subject to all the terms and conditions of M-364 with respect to certified orders, so far as applicable. No one may use the certificate to get more lumber than the minimum necessary to fulfill his authorized schedules for the production of farm machinery, or to get lumber for any use except as production material: for example, no one can get lumber under this direction for boxing and crating his product. The inventory restrictions of paragraph (c) of Order M-364 are waived so long as the above restrictions are complied with.

- (d) Manufacturers of farm machinery who get restricted hardwood lumber under this direction shall report by letter, ten days after the end of each quarter, to the War Food Administration, Office of Materials and Facilities, Washington, D. C., stating their inventories of restricted hardwood for production material at the beginning of the quarter, the amount delivered to them for production material during the quarter, and the amount used for production material during the quarter, whether obtained under this direction or in some other way. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.
- (e) Manufacturers of farm machinery do not have to get restricted hardwood lumber under this direction unless they want to. They may get it in any other way that is allowed under M-364. For example, a small

manufacturer who buys from a mill producing less than 10,000 board feet a day may prefer not to change his arrangements. Manufacturers who buy from a limited number of sources may prefer to file on WPB-2720.

(f) "Farm machinery" means farm machinery and equipment as defined in Orders L-257 and L-257-a. "Production material" means material for the production of farm machinery.

- (2) "Producer" means any person engaged in the production of any subject chemical and includes a person who imports any subject chemical or has it produced for him pursuant to toll agreement.
- (3) "Distributor" means any person who buys any subject chemical for the purpose of resale without further processing and without changing the form thereof.
- (4) "Supplier" means a producer or distributor.
- (b) Restrictions on deliveries. Such price shall be calculated upon the basis of the prices, pricing practices, freight practices, trade discounts, charges (including package charges) allowances, and deposits (other than deposits on cloth bags which may be required in a reasonable amount so long as the refund equals the deposit) most favorable to purchasers in effect, published, listed, or quoted by the seller during the period March 1 to 15, 1942, but upon the basis of the freight rates in effect at the time of any shipment made subsequent to September 23, 1942.

(3) A delivered price may be charged under paragraph (ii) of paragraphs (c) (1) and (2) of this section equal to the f. o. b. mill price plus freight charges incurred by the manufacturer in making delivery to the point of destination: Provided, That if the seller makes delivery with his own facilities he may add to the f. o. b. mill price the charges which he customarily made for such transportation services during the period March 1 to 15, 1942, but in no event to exceed the lowest common carrier charge for such shipment by the mode of transportation employed.

(4) The maximum prices established under this paragraph (c) are subject to trade discounts, quantity differentials,

charges (including package charges) allowances, and deposits (other than deposits on cloth bags which may be required in a reasonable amount so long as the refund equals the deposit) most favorable to domestic purchasers of the same class, which the manufacturer had in effect, published, listed, or quoted, during the period March 1 to 15, 1942: Provided, however That the manufacturer may add an amount to his maximum domestic price to compensate for export packaging costs in excess of those incurred on domestic sales.

(6) The differentials from the price of American Society for Testing Materials Types 1 and 2 Portland cement which prevailed on March 15, 1942, with respect to American Society for Testing Materials Type 3 Portland cement (high early strength cement) white cement, oil-well cements, masonry cement, and other cement, shall be added to or subtracted from, as the case may be, the maximum selling prices established under this paragraph for American Society for Testing Materials Types 1 and 2 Portland cement, to determine the maximum prices for such other cements.

This Amendment No. 4 to Maximum Price Regulation No. 224 shall become effective January 11, 1944.

PART 1367—FERTILIZERS
[2d Rev. MPR 135, Incl. Amdt. 1]

MIXED FERTILIZER, SUPERPHOSPHATE AND POTASH

Section 10 (a) (4) and Schedules C, D, G, I, J, M, N, O and Q are amended; a paragraph is added before Schedule A and paragraph (f) is added to Schedule K by Amendment 1, effective January 11, 1944, so that 2d Revised Maximum Price Regulation 135 shall read as follows:

In the judgment of the Price Administrator, it is necessary and proper to establish maximum prices for sales to consumers of mixed fertilizer, super-

phosphate and potash which differ from and supersede such maximum prices established under Revised Maximum Price Regulation No. 135, as amended.

The maximum prices established herein are not below the average prices of mixed fertilizer, superphosphate and potash sold to consumers during the year 1941. They do however meet the minimum required by law being above their average prices on September 15, 1942 only to the extent of intervening unabsorbable increases in costs of production and distribution. The Price Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry affected by this regulation.

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the fertilizer industry and have previously been promulgated and their use lawfully required by another Government agency.

A statement of the considerations involved in the issuance of this Second Revised Maximum Price Regulation No. 135 has been issued simultaneously herewith and filed with the Division of the Federal Register.<sup>3</sup>

AUTHORITY: § 1499.2252 issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. Sales of Western contract logging services at higher than maximum prices, prohibited. (a) On and after January 11, 1944, no person shall sell or provide Western contract logging services, and no person shall buy or receive contract logging services in the course of trade or business, at prices higher than the maximum prices fixed by this regulation; and no person shall agree, offer, or attempt to do any of these things.

(b) Prices lower than the maximum prices may be charged and paid.

Sec. 2. What services are covered. (a) This regulation covers under the term "logging services" all services in connection with the transportation and production of logs, bolts, pulpwood and other primary forest products, including all operations in connection therewith, such as hauling, road construction, felling, bucking, cutting, skidding, yarding, peeling, loading and reloading, etc. It also covers the transportation of gravel, building materials, machinery and the like when performed solely in connection with a logging operation. "Primary forest products" include all logs, bolts, pulpwood, chemical wood, posts, poles, piling, hewn railroad ties, mine materials (other than sawn) etc., but does not include firewood. It includes booming and rafting when performed by the log producer but not when rendered as a separate service.

(b) "Western" contract logging services means only those performed west of the 100th meridian in the continental limits of the United States, namely in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyo-ming, Colorado, New Mexico, and the western portions of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma and Texas.

(c) The term "contract logging service" covers only services renaered by mdependent contractors who do not own the stumpage. It does not include transactions where commodities, as distinguished from services, are sold; in that case, the celling on logs, pulpwood, etc., governs the transaction.

Sec. 3. Maximum prices. (a) The maximum prices on Western contract logging services shall be the difference between the ceiling price on the logs, bolts, pulpwood or other primary forest products, and the stumpage cost of those items, compared at the delivery points specified in the appropriate regulations and on the basis of the same scale. For example, if the ceiling price on a given type of log is \$20.00 per M delivered to towable waters and the stumpage cost on the same scale rule is \$4.50 per M, the celling on the complete contract logging service of delivering logs from stump to towable waters would be \$15.50 per M; if under the contract only a portion of a service is rendered, such as loading, transportation, etc., the price of that portion shall not exceed the delivery point price minus stumpage (or, in this example, \$15.50) less all other costs of producing the logs from stump to delivery point.

(b) If more than one primary forest product is cut or where species or items of different value are cut, the total stumpage cost of each primary forest product, species, or species group, shall be determined in accordance with the usual bookkeeping practice of the buyer of the services. These amounts shall then be deducted from the total value at ceiling prices of each of those primary forest products or species. The remainders then constitute the ceiling price on the contract logging service for each item, species or different primary forest product. On lump sum transactions, however, the total stumpage cost may be deducted from the total estimated value at ceiling prices of all the primary forest products to be cut, and that remainder will represent the maximum lump sum amount which can be paid for the contract logging of all those products.

(c) Where only a portion of a complete logging service is rendered, as where only loading or transportation is performed, the cost of that portion when added to all other costs of logs delivered

<sup>\*</sup>Copies may be obtained from the Office of Price Administration.

Where the transaction is subject to Maximum Price Regulation 348, but dollars-andcents prices have not been established in the particular area, then the maximum price established under section 3 of that regulation. If there are no purchased log transactions, see paragraph (f) of section 3 of this regulation.

to the consuming mill or delivery point, including the stumpage cost, must not exceed the ceilings established on the logs or other primary forest products produced.

(d) Where more than one portion of a tract or holding in not more than four counties and belonging to a single owner is being operated by contract loggers. the test of paragraph (a) will be met if the total of all the logging contracts plus the total cost of all the stumpage being cut does not exceed the total value at the applicable ceilings of the products

- into which the stumpage is made.

  (e) "Stumpage cost" means the actual cost or book value of the timber being cut. "Stumpage" means all timber (whether green or dead, standing or down) of all species, classes and sizes, which has not been severed from the stump. In cases where only portions of larger tracts are being cut, the buyer of the service may allocate a value to the particular portion in accordance with his usual bookkeeping practice. The portions so allocated, however, must average-out" so that the value assigned the whole tract is not less than actual cost or book value.
- (f) If there are no specific maximum prices on any of the logs, bolts, pulpwood, chemical wood or other primary forest products, and no maximum price can be computed under Maximum Price Regulation 284, Revised Maximum Price Regulation 161 or section 3 of Maximum Price Regulation 348, the buyer and seller should join in requesting the Lumber Branch, Office of Price Administration, Washington, D. C., to establish a contract logging price. The Lumber Branch may establish the maximum price by letter or telegram.
- (g) Any contracts on a formula, percentage or any basis other than a specific price, must contain a maximum limitation which meets the requirements of this section.
- (h) The buyer of the service must file the report required by section 6 (b) covering each contract for logging services as defined herein.

Sec. 4. Revision of contracts. The Lumber Branch may, at any time during the continuance of the contract, require its revision, if it appears that the price established does not meet the test of section 3 or that the stumpage cost assigned by the buyer of logging services is abnormally low in relation to current market values, and that this abnormality results in a contract logging maximum price as high as to cause a shortage of contract logging services for other buyers requiring these services. Before such action is taken, the parties shall be given 15 days' notice in order that they may have an opportunity to file objections to the proposed revision.

Sec. 5. Previous contracts. Any contracts on logging services either established or adjusted under Maximum Price Regulation No. 165, prior to the effective date of this regulation remain in effect in accordance with their terms until and unless revised under section 4. A report covering each such contract as required by section 6 (b) shall be filed by the buyer of the service within 10 days of the effective date of this regulation.

Sec. 6. Records and reports. (a) All buyers of contract logging services must keep a record of the name and address of the contractors used, the price established, location of operation involved, actual stumpage cost and all other costs assigned to the particular tract or portion being cut under the contract, as well as copies of the contracts. These records must be kept for so long as the Emergency Price Control Act remains in effect, for inspection by the Office of Price Administration.

(b) Buyers of contract logging services shall file with the Lumber Branch, Office of Price Administration, Washington, D. C., one copy of Form 675-678 for each logging contract made. In the case of contracts existing when this regulation takes effect, the form shall be filed within 30 days of that effective date. As to all contracts made after this effective date, the form shall be filed within 15 days of the date of execution of the contract.

SEC. 7. Petitions for amendment. Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

Sec. 8. Enforcement. Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions and suits for treble damages provided for by the Emergency Price Control Act of 1942.

Sec. 9. Licensing. The provisions of Licensing Order No. 1, licensing all persons who make sales under price control. are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

Sec. 10. Prohibited practices—(a) General. Any practice which is a device to obtain the effect of a higher-thanceiling price without actually raising the price is as much a violation of this regulation as an outright overceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings, and the like.

- (b) The following is among the specific practices prohibited:
- (1) Attempting to evade this regulation by selling stumpage to the contractor at less than a fair market value and repurchasing it in the form of logs, pulpwood, or other-primary forest products.

SEC. 11. Geographical applicability. This regulation applies in so much of the 48 states of the United States and the District of Columbia as lies west of the 100th meridian.

This regulation shall become effective January 11, 1944.

Note: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of

(2) 3 cents per bushel for sales in less than carload quantities of 100 bushels or more.

(3) 6 cents per bushel for sales of less than 100 bushels.

(c) The merchandiser's basic maximum price above referred to shall be calculated as follows:

(1) The formula price specified in Appendix A at that terminal city or interior rail point where delivered to the purchaser, plus all permitted charges and increases (other than transportation costs) previously added thereto; or as an alternative in the case of a sale in a less than carload quantity, the formula price specified in Appendix A at the terminal city or interior point where such seller took delivery of the wheat in question, plus (in addition to all permitted charges and markups previously added thereto, other than transportation costs) transportation charges actually incurred by the seller from said terminal city or interior point at which he took delivery of the wheat in question to the point where he delivered the same to his buver.

(d) Irrespective of the number of merchandisers or commission merchants who may have handled the wheat in question, the maximum price to the purchaser shall not be increased by the addition of markups or service charges under this section and under section 6 hereof (whether singly or combined) to a greater extent than:

(b) Irrespective of the number of such handlings of the wheat in question the maximum price to any purchaser shall not be increased by additions under this section of more than 2 cents per bushel.

(c) This section shall have no application to any wheat purchased by the seller from a producer under section 4 hereof at such elevator or warehouse and no increase for handling shall be permissible in such case.

Sec. 10. Increases for sacks and sacking. (a) Where any seller sells wheat sacked and furnishes both the sacks and sacking, the foregoing maximum prices for a like sale in bulk may be increased by the reasonable value of the sacks (not exceeding any maximum price established thereon) plus, except where the seller is the producer, 3 cents per bushel for the sacking.

(b) Where any seller other than a producer sells wheat sacked after furnishing the service of sacking (but not the sacks) the foregoing maximum prices for a like sale in bulk may be increased by 3 cents per bushel for the sacking service.

Thus, by way of illustration only, a country shipper acting in that capacity may sell wheat grown by him at the maximum price established for country shippers; or a merchandiser acting through different units. of such business may receive more than one markup under section 3 hereof as hereinaster provided.

(b) However, where a seller makes a sale at the maximum price for a given class of seller, where he would also qualify to make a sale to a like purchaser at a lower maximum price as a different class of seller, the burden shall always rest upon him to establish by clear evidence that said sale was in the regular course of his conduct of a distinct and segregated branch or unit of his entire business which branch has corresponding facilities and performs like services and functions as independents perform who belong to that class of seller. For the purposes of this regulation only one producer branch and one country shipper branch shall be recognized in any single business performing several marketing operations, but each merchandiser branch, constituted as a distinct and segregated branch or unit, may take one of the permitted merchandiser's markups and no more.

SEC. 14. Documents and reports. (a) Every person subject to this regulation making a sale or purchase of wheat in the course of trade or business on or after the effective date of this regulation shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942. as amended, remains in effect, complete and accurate records of such sales and purchases, including the date thereof, name of the seller and purchaser, price paid or received, buyer's receiving point and the quantity of wheat sold or purchased: Provided, That producers and sellers of quantities of 100 bushels or less need keep only such records as they customarily kept as of the effective date of this regulation.

(b) Persons affected by this regulation shall submit such records to the Office of Price Administration as it may from time to time require.

SEC. 15. Evasive practices. The price limitations set forth in this regulation shall not be evaded whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase, or receipt of or relating to wheat, alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying agreement, or other trade understanding or by any other means.

Sec. 16. Enforcement. Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages, and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 17. Licensing. The provisions of Licensing Order No. 1 licensing all per sons who make sales under price control are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended. These provisions do not apply to any producer selling wheat produced by him.

Sec. 18. Adjustable pricing. Any per son may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery. but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending; but only if the author ization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

Sec. 19. Maximum prices for export sales. The maximum prices for export sales shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation.

SEC. 20. Petitions for amendment. Any person seeking a modification of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 21. Exempt sales. Whenever circumstances of emergency make the purchase of wheat by the United States or any of its agencies imperative and it is impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable, such purchases and deliveries may be made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1 to the General Maximum Price Regulation.

Sec. 22. Adjustment of maximum price containing a fraction of a cent. If a maximum price determined under this regulation results in a fraction of a cent other than ½ of a cent or multiple thereof, the same may be increased to the next higher ½ of a cent.

- (d) The discounts for the grades mentioned in Tables Ia, Ha and IIIa are cumulative. For example, wheat grading No. 2 garlicky is subject to a discount of at least 1 cent for grading No. 2 plus a further discount of at least 3 cents for grading "garlicky" or a minimum total discount of 4 cents per bushel.

(e) The formula prices mentioned in Tables I, II and III shall be decreased 3 cents per bushel for sales in any of the terminal cities mentioned in said tables without transit billing annexed to the lot sold.

3. Formula prices at interior rail points.

(a) The price per bushel for any wheat, bulk,

- at any interior rail point in Area A shall be that maximum price specified in Appendix A, Tables I, II and III which, less transportation charges at the lowest published domestic carload rail transportation rate from that interior rail point to any terminal city, will result in the highest price at said interior rail point, plus, if the wheat sold at said in-terior rail point is accompanied by transit billing usable beyond said interior rail point, the value of the transit billing. This value shall be calculated at the difference between the amount of the transportation charges, deducted from the appropriate terminal city's maximum price in calculating a maximum price for said interior rail point as above provided, and the rail transportation charges payable on the transit billing or movement of wheat from said interior rail point to said terminal city.
- (b) ,The formula for any wheat per bushel, bulk, at any interior rail point in the following areas shall be as follows:
- (1) In Alabama, Mississippi, Florida, Georgia, North Carolina, South Carolina, in Ten-

nessee east of the Western boundaries of Campbell, Anderson, Roane, Rhea and Hamilton counties, Virginia, West Virginia, Delaware, New Jersey, the New England States and the Eastern Shore of Maryland south of a line drawn east and west through Chesapeake City, the formula price at Chicago, Illinois or St. Louis, Missouri, as above set forth, plus the transportation cost at the lowest domestic carload rail proportional rate from Chicago or St. Louis to the interior rail point in question, whichever is lower.

(2) In Arizona, the formula price at Kan-

- sas City, Missouri, plus 17 cents per bushel.
  (3) In New Mexico, except in Quay, Debaca, Curry, Roosevelt, Chaves, Lea, Eddy, Guade-lupe, Lincoln and Otero counties, the formula price at Kansas City, Missouri, less 16%¢ per bushel, plus the lowest flat carload rail rate from Lamar, Colorado to the interior rail point in question.

  (4) In Colorado west of Larimer, Boulder,
- Gilpin, Clear Creek, Park, Fremont, Custer, Huerfano and Las Animas counties, the for-mula price at Kansas City, Missouri less 12 cents per bushel.
- 4. Formula prices at interior non-rail points. The formula price for any wheat, bulk, at any interior non-rail point shall be the maximum price set forth in section 3 of this Appendix A at the rail point (either interior rail point or terminal city, as the case may be) nearest thereto by the most usually traveled route, less transportation charges from said interior non-rail point to said rail point: Provided, That if a commercial elevator or warehouse for the purchase and handling of grain is operated at a non-rail point, the formula price at that point shall be the same as that at the nearest rail point.
- 5. Formula prices for mixed wheat. The formula price per bushel, bulk, for mixed wheat at any terminal city or interior point shall be the appropriate maximum price for the class and grade of wheat predominating in the mixture at such terminal city or interior point adjusted for the moisture and protein content in the mixture in accordance with the tables in Appendix A less (unless the mixture consists wholly of hard red winter and hard red spring wheats or wholly of soft red winter and white wheats or is of the subclasses of Amber Mixed Durum or Mixed Durum) two cents per bushel.
- 6. Formula prices for mixed grain. The formula price per bushel, bulk, for mixed grain containing more than 50 per cent of wheat at any terminal city or interior point shall be determined by mul-

This supplementary order establishes maximum prices at which government agencies shall sell food commodities and exempts from price control sales of food by government agencies to the persons and organizations listed in section 7. This supplementary order does not, however, establish maximum

prices for the sale by government agencies of any food commodity which is not otherwise subject to price control, nor does it cover sales which are, by express reference to government agencies or any government agency, specifically governed by the provisions of other orders or price regulations unless the sale is exempted from price control by the operation of section 7.

Sec. 2. Where this supplementary order applies. The provisions of this supplementary order shall be applicable only to the 48 states of the United States of America and to the District of Columbia.

SEC. 3. What this supplementary order permits. Lower prices than those established by this supplementary order may be charged, demanded, paid or offered, whether by way of discounts, allowances or otherwise.

SEC. 4. What this supplementary order prohibits. On and after January 12, 1944, regardless of any contract, agreement or other obligation, no government agency or official or employee of a government agency shall sell, deliver or purchase, or cause to be sold, delivered or purchased, for the account of any government agency, food commodities at a price higher than the maximum prices established by this supplementary order, and no person in the course of trade or business shall buy or receive such foods at a price higher than the maximum prices established by this supplementary order; and no person shall agree, offer, solicit, or attempt to do any of the foregoing.

SEC. 5. Definitions—(a) Government agency. For the purposes of this supplementary order the term "government agency" shall include the United States Government or any department, agency, commission, corporation or other such instrumentality of the United States Government.

(b) Food or food commodity. For the purposes of this supplementary order, the term "food" or "food commodity" shall mean all commodities or products, simple, mixed or compound, or complements to such commodities or products that are or may be eaten or drunk by either humans or animals, irrespective of other uses to which such commodities or products may be put, and at all stages of processing from the raw commodity to the product thereof in a vendible form for immediate consumption. Furthermore, the term shall include tobacco. all starches, sugars, vegetable and animal fats and oils, and all other commodities which may be designated by the Administrator of the Office of Price Administration upon request of the War Food Administrator.

(c) Person. The term "person" includes an individual, corporation, partnership, association, government agency or any other organized group of persons as hereinbefore defined or the legal successor or representative of any of the foregoing.

(d) Definitions of the Emergency Price Control Act of 1942, and the General Maximum Price Regulation. Unless the context requires otherwise, the definitions of section 302 of the Emergency Price Control Act of 1942, as amended, and of the General Maximum Price Regulation, as amended, shall apply to the terms used in this supplementary order.

Sec. 6. Sales not covered by this supplementary order. This supplementary order shall not apply to, supersede, or in any other way affect any provision of other orders or price regulations which:

 (a) Excludes from price control the sale of any food commodity by any government agency; or

(b) Establishes maximum prices for the sale of food by government agencies by express reference to such government agencies and not by mere residual clauses or by the common definition of the term "person" to include government agencies. However, if the sale under such provision is exempted from price control by section 7, the provisions of section 7 shall govern the sale.

SEC. 7. Sales exempt from price control. Irrespective of the provisions of any other price regulation, or order, no government agency shall be required to abide by or conform to any maximum or ceiling prices in the sale of food to:

(a) Any other government agency; or (b) Any foreign government or agency of a foreign government; or

(c) Any relief organization for donation or export sale.

Sec. 8. Non-exempt sales—(a) How to determine the maximum price. Any sale of food commodities by government agencies which is not excluded from the operation of this supplementary order by section 6, or exempted from price control by section 7, shall be subject to the following maximum or ceiling prices:

(1) Sale to the producer, processor, or manufacturer from whom the food was purchased. The resale of food to the producer, processor, or manufacturer from whom purchased shall be at a price not to exceed the buyer's maximum selling price for the food in the quantity and at the place and season that delivery is made or at the price paid for it by the government agency originally purchasing the food, whichever is the higher.

(2) Sale to other producers, processors or manufacturers of the same or a similar food commodity. (1) The sale of food to other producers, processors, or manufacturers of the same food commodity shall be at a price not to exceed the buyer's maximum selling price for the food in the quantity and at the place and season that delivery is made.

(ii) The sale of food to a producer, processor, or manufacturer of a similar food commodity shall be at a price not to exceed the maximum price at which its producer, processor, or manufacturer, if he can be readily ascertained, could sell the food in the quantity and at the place-and season that delivery is made. If the producer, processor, or manufacturer is not readily ascertainable, then the sale shall be at a price not to exceed the buyer's maximum selling

price for the food in the quantity and at the place and season of delivery under the price regulation covering that specific food commodity.

(3) Sales to distributors other than manufacturers, processors, or producers.
(i) The sale of food to a distributor dealing in the same food commodity, other than a manufacturer, processor, or producer, shall be at a price not to exceed the highest maximum price the distributor could pay any of his usual suppliers for the food in the quantity and at the place and season that delivery is made.

(ii) The sale of food to a distributor who deals in a similar but not in the same food commodity, other than a manufacturer, processor, or producer, shall be at a price not to exceed the highest maximum price which the most closely competitive distributor of the same class could pay any of his usual suppliers for the specific food commodity being sold in the quantity and at the place and scason that delivery is made. If, however, the distributor's maximum price cannot be determined by the foregoing method, the sale shall be at a price not to exceed the maximum price at which the food could be sold in the quantity and at the time and season of delivery to the distributor by his usual supplier under the price regulation covering the specific food commodity being sold.

(4) Sales to all others. The sale of food to anyone who does not produce, process, manufacture, or distribute the same or a similar food commodity shall be at a price not to exceed (1) the price which the government agency originally purchasing it paid for the food commodity or (2) such price as is necessary to reflect to producers or growers the higher of the minimum prices required by section 3 of the Emergency Price Control Act of 1942, as amended, whichever is the higher.

(b) When unusual packaging costs may be added to the maximum prices. The government agency may add the cost of special or unusual packaging of the food commodity to the maximum price as computed under the appropriate paragraph of this section only when, and to the extent that, such packaging is of value to the buyer. If the special or unusual packaging is of no value to the buyer, however, the maximum price which the government agency may receive shall be the maximum price computed under the appropriate paragraph of this section for the food commodity in its usual packaged form, and the purchaser shall not then be required to pay for extra packaging costs incurred by the government agency for the packaging of the commodity in any other than its usual form.

Sec. 9. Liability of officials of government agencies. Officials of government agencies making sales under the paragraphs of section 8 are exempted from any liability for the violation of any of the maximum price ceilings prescribed herein if they have obtained from the buyer a sworn certificate attesting to the buyer's maximum or ceiling price for the food commodity, as computed under the provisions of the appropriate paragraph

<sup>&</sup>lt;sup>1</sup>The "price paid" is to be determined in the same manner, whether by averages or otherwise, usually used to compute such prices.

of section 8 and have sold the food commodity at a price not in excess of the certifled maximum price.

SEC. 10. Enforcement. All persons, other than government agencies, violating any provision of this supplementary order are subject to the criminal penalties, civil enforcement actions and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

This Supplementary Order No. 81 shall become effective January 12, 1944. Issued this 6th day of January 1944.

> JAMES F. BROWNLEE, Acting Administrator.

Approved: December 28, 1943. ASHLEY SELLERS, Assistant War Food Administrator.

### TITLE 34-NAVY.

Chapter I-Department of the Navy

PART 13-SERVICEMEN'S DEPENDENTS ALLOWANCE

JOINT REGULATIONS UNDER SERVICEMEN'S DEPENDENTS ALLOWANCE ACT, AS AMENDED

Section 13.1 as published in the FEDERAL REGISTER 3 August 1943 (8 F.R. 10764) is rescinded and the following new § 13.1 is substituted therefor: -

- § 13.1 Period of entitlement and payment of family allowances. Under provisions of the Servicemen's Dependents Allowance Act of 1942, as amended, the Secretary of War and the Secretary of the Navy prescribe jointly the following regulations pertaining to family allowances.
- (a) Payments of all family allowances shall be for periods of full calendar months.
- (b) To insure expeditious payment of the initial family allowance:
- (1) Payment shall be made on the basis of the statements of the enlisted man in the application, filed within the prescribed period, and to or on behalf of eligible dependents designated therein; and
- (2) Eligibility for initial family allowance will be deemed to have existed on and from the date of entry into active service if the application indicates eligibility on the date of application.
- (c) Erroneous statements or misrepresentations in applications for initial family allowances may, as determined by the Secretary of the department concerned, be the basis for recovery by charge against the pay of the applicant, or otherwise, and for disciplinary action.
- (d) When an initial family allowance is paid to any dependent for the month of an enlisted man's entry into active service in a pay status, no regular monthly family allowance shall be paid to any dependent of such enlisted man for that month. When no initial family allowance is paid, the period of entitlement and payment of the regular

monthly family allowance shall begin as hereinafter prescribed.

(e) Except as otherwise provided, the period of entitlement to and payment of regular monthly family allowances, including any increases therein, shall begin as of the first day of the calendar month in which a required written application (or a notice of change in a case of increase) is filed, or the first day of the calendar month in which a dependent is acquired, whichever is later, but in no case earlier than the month of entry of the enlisted man into active service in a pay status. In case of Class B or Class B-1 dependents the period of entitlement and payment may begin as of the first day of any subsequent calendar month that the enlisted man requests.

(f) Any increase in a regular monthly family allowance in effect to a wife, or wife and children, incident to the birth of a child or additional child, shall be effective as of the first day of the calendar month during which the birth occurs notwithstanding that notice or evidence thereof is received in a subsequent month.

- (g) Except as otherwise provided, the period of payment of monthly family allowance shall terminate, or payment shall be decreased, as of the end of the calendar month during which any notice is received by the disbursing officer paying the allowance of a change which terminates or limits the entitlement of the dependent or dependents to such allowance. Entitlement to family allow-ance shall terminate or be modified at the end of the month in which such change occurs. Checks to which there is no entitlement may be permanently withheld.
- (h) Insofar as practicable the period of entitlement and payment of any Class B or Class B-1 regular monthly family allowance requested in writing by the enlisted man to be discontinued, other than by reason of change in status of dependents, shall terminate as of the end of the calendar month requested by the enlisted man or the end of the calendar month during which such request is received by the disbursing officer paying the allowance, and in no case later than the end of the next succeeding calendar

(i) For the purpose of determining amounts of family allowance to be paid:

(1) In cases in which no family allowance has been granted to a wife or divorced wife, the amount of family allowance payable to children shall be the amount specified in the statute where there is no wife or divorced wife;

(2) In cases in which no family allowance has been granted to a parent, the amount of family allowance payable to brothers and sisters shall be the amount specified in the statute where there is no parent;

(3) All children of an enlisted man shall be considered one family entity irrespective of differences in their custody, residence, or parentage;

(4) Parents of an enlisted man, and all his brothers and sisters irrespective of differences in their custody, residence,

or parentage, shall be considered one family entity;

(5) The total amount of monthly family allowance payable to or for the benefit, respectively, of two or more children, of two parents, or of two or more brothers and sisters, shall be equally divided among the respective children, parents, or brothers and sisters or shall be otherwise apportioned and paid within the respective groups as the Secretary of the department concerned may direct.

(j) Whenever a court order or decree or written agreement of separation provides a single sum for alimony to a divorced wife or maintenance for a wife and also for the support of a child or children, the proportional share of the wife or divorced wife in such sum shall, for the purpose of carrying out the pro-visions of section 106 (c) of the act, be deemed to be sixty per centum thereof in the case of one child and forty per centum thereof in any case of two or more children. Regardless of any limit stated in a court order or decree or written agreement the full statutory amount of family allowance shall be payable to or on behalf of any child or children.

(k) Application of section 106 (c) (1) shall be made in those cases in which there is a lawful wife living separate and apart from the enlisted man and there is also a court order or decree or a written agreement which expressly or impliedly provides for the beginning or continuance of such living separate and apart. In construing a court order or decree or written agreement full consideration shall be given to all the facts and circumstances under which the order, decree or agreement is issued or made. A penal order for marital support or an order in a desertion case is not within this statutory limitation; in such cases the full allowance for a wife is payable.

(1) The payment of any amounts of a family allowance uncollected at the time of death of a dependent shall be made to such payee or payees, including the enlisted man when appropriate, as the Secretary of the department concerned shall deem equitable, subject to the provisions of section 115 of the act.

(m) The Secretary of the department concerned may at any time require additional evidence in any family allowance case. Failure to furnish such evidence within a reasonable time after request or any insufficiency of evidence shall constitute good cause for the discontin-uance or modification of such family allowance.

These joint regulations are effective 1 November 1943; they rescind and supersede the joint regulations approved 19 July 1943.

(56 Stat. 381, 57 Stat. 577; 37 U.S.C. Sup. 201, et seq.)

Approved: December 4, 1943.

HENRY L. STIMSON. Secretary of War.

Approved: December 21, 1943. FRANK KNOX, Secretary of the Navy.

(2) The prices set forth in the foregoing schedule are per ton prices on sales of the specified fuels in quantities of two tons or more.

(3) On sales of one ton or more but less than two tons the dealer may add an additional charge not to exceed 50¢ to

the schedule price.

(4) On sales of less than one ton, except sales covered by paragraph (e) balow, the dealer may add an additional charge not to exceed \$1.00 to the schedule price.

(5) When sales are made for cash, a cash discount of 25¢ per ton shall be applied to the per ton price in the foregoing schedule or as computed above on sales involving quantities of less than two tons. This cash discount, however, shall apply only on sales made by dealers who allowed a cash discount on the major portion of their sales of solid fuels in December 1941. Cash and credit, as used in this paragraph, shall mean the terms of sale of the dealer in effect on the effective date of Revised Maximum Price Regulation No. 122.

(6) On sales of solid fuel by one dealer to another dealer the price shall not be less than \$1.75 per ton under the maximum price of the fuel as set forth in the

foregoing schedule.

(7) On sales to commercial and industrial users a discount of 75¢ per ton shall be applied to the prices set forth in the foregoing schedule. A commercial or industrial user, for the purposes of this order, shall mean any person who purchases for use fifty or more tons of coal per annum.

(8) All dealers making sales under this order must maintain all discounts not specifically set forth in this order which were in effect during the major portion of December 1941.

(d) Service charges. (1) Below and as a part of this paragraph (d) is a schedule that sets forth maximum prices which a dealer may charge for special services rendered in connection with all sales under paragraph (c). These charges may be made only if the buyer requests such service of the dealer and only when the dealer renders the service. Such service shall be separately stated in the dealer's invoice, sales slip or receipt.

(i) A service charge not to exceed 75¢ per ton may be charged for the service described as job, carry or wheel-in service, in the case of all solid fuels except coke.

(ii) On sales of coke a service charge of not to exceed \$1.00 per ton may be added.

(e) On sales of Low Volatile Bituminous Coal, minimum ¾ inches, in quantities less than ½ ton, delivered, the maximum price shall be 50¢ per bushel of a minimum weight of eighty pounds.

(f) Ex parte 148 freight rate increase; transportation tax; Missouri State sales tax—(1) The freight rate increase. Since the ex parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, the dealers' freight rates are the same as those of December, 1941. Therefore, no dealer may increase any schedule price on account of freight rates.

- (2) The transportation tax. Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set out by this order provided the dealer states it separately from the price of the fuel and lists it separately on any invoice, sales slip or receipt given to the buyer. (This tax need not be stated separately on sales to the United States or any agency thereof. See Amendment No. 12 to Revised Maximum Price Regulation No. 122). No part of this tax may be collected in addition to maximum prices on sales of 1/4 ton or lesser quantities.
- (3) The Missouri sales tax. The seller may add to the prices listed in the schedule in paragraph (c) the sales tax required to be collected by the laws of the State of Missouri. This tax shall be separately stated in the dealer's invoice, sales slip or receipt.
- (g) Addition of increase in supplier's prices prohibited. (1) The maximum prices set out by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Regional Administrator.
- (h) Power to amend or revoke. (1) The Price Administrator or the Regional Administrator of Region V may amend, revoke, or rescind this order, or any provision thereof, at any time.
- (i) Petitions for amendment. (1) Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.
- (j) License. (1) Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72. This provides in brief that a license is required of all persons selling at retail commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license, but a dealer may later be required to register. The license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.
- (k) Records and reports. (1) Every person making a sale of solid fuel for which a maximum price is set by this order shall keep a record thereof showing: the date, the name and address of the buyer, if known, the price charged and the kind and size of fuel sold. The fuel shall be identified in the manner in which the fuel is described in this order: The record shall also state separately each service rendered and the charge made for it.
- (1) Posting of maximum prices; sales slips and receipts. (1) Each dealer subject to this order shall post all the maximum prices set by it for all types of sales.

He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel.

(2) In the case of all sales covered by this order every dealer who during December, 1941, customarily gave buyers sales slips or receipts shall continue to do so. In any case if a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, sizes and quantity of the solid fuel sold to him on the price charged, the dealer shall comply with buyer's request and furnish such sales receipt.

(m) Enforcement. (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.
